INVESTMENT OBJECTIVE:

The Investment Objective of the Small/Mid Cap Equity Fund is to seek investment growth/capital appreciation through both active and passive investment in stocks of small- and mid-sized U.S. companies.

INVESTMENT MANAGERS:

The Small/Mid Cap Equity Fund is comprised of the following three underlying managers: RhumbLine, Loomis, and CS McKee. RhumbLine utilizes passive management to attempt to match the characteristics and performance of the Russell Small Cap Completeness Index. Both Loomis and CS McKee utilize active management with the objective of adding value relative to the benchmark through bottom-up, fundamental security selection. Loomis tends to favor a more diversified portfolio that invests primarily in small- and mid- capitalization companies. CS McKee's approach is more of a concentrated, buy-and-hold strategy with a focus on small capitalization companies. Together, the three managers provide for a diversified stock portfolio of small- and mid-sized U.S. companies.

Disclosures:

Past performance is not a guarantee or a reliable indicator of future results. An investment in the Fund could lose money over short or even long periods. You should expect the Fund's share price and total return to fluctuate within a wide range, like the fluctuations of the overall stock market. The Fund's performance could be hurt by stock market risk, which is the chance that stock prices overall will decline. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Further, the Fund's performance could be hurt by investment style risk, which is the chance that returns from small- and middle-capitalization stocks will trail returns from the overall stock market. Historically, these stocks have been more volatile in price than the large-cap stocks that dominate the overall market, and they often perform quite differently.

All data presented is calculated from manager composite performance prior to 4/1/2013.
